PROGRAM DESCRIPTION: Construction Technology I focuses on classroom and lab experiences involving the formation, installation, maintenance, and repair of buildings, homes, and other structures. A history of construction, with an emphasis on future trends and career options, is also covered. This program provides instruction in reading technical drawings and transforming those drawings into physical structures. The relationship of views and details, interpretation of dimension, transposing scale, tolerance, electrical symbols, sections, materials list, architectural plans, geometric construction, three dimensional drawing techniques, and sketching are presented as well as elementary aspects of residential design and site work. Students examine the design and construction of floor and wall systems and develop layout and floor construction skills. Blueprints and other professional planning documents are also covered. Students will develop an understanding and interpretation of the Indiana Residential Code for one and two-family dwellings and safety practices including OSHA's safety & health standards for the construction industry.

MAJOR LEARNING OBJECTIVES:

1. Integrate basic shop and workplace safety concepts into classroom activities and projects.
2. Utilize the appropriate hand, power, and stationary tools to complete various components of a building project.
3. Interpret data from plans, specifications, and codes to construct various structures.
4. Interpret residential and light commercial construction blueprints to construct structures.
5. Evaluate quantities and strength of concrete and masonry materials to perform floor and wall installations.
6. Construct floor framing as dictated by local, state, or federal regulations.
7. Construct wall framing as dictated by local, state, or federal regulations.
8. Apply concepts and basic skills in practical residential construction projects to layout a stairway.
9. Establish communication skills to properly identify ideas and concepts in floor and wall layout construction.
